MIP480

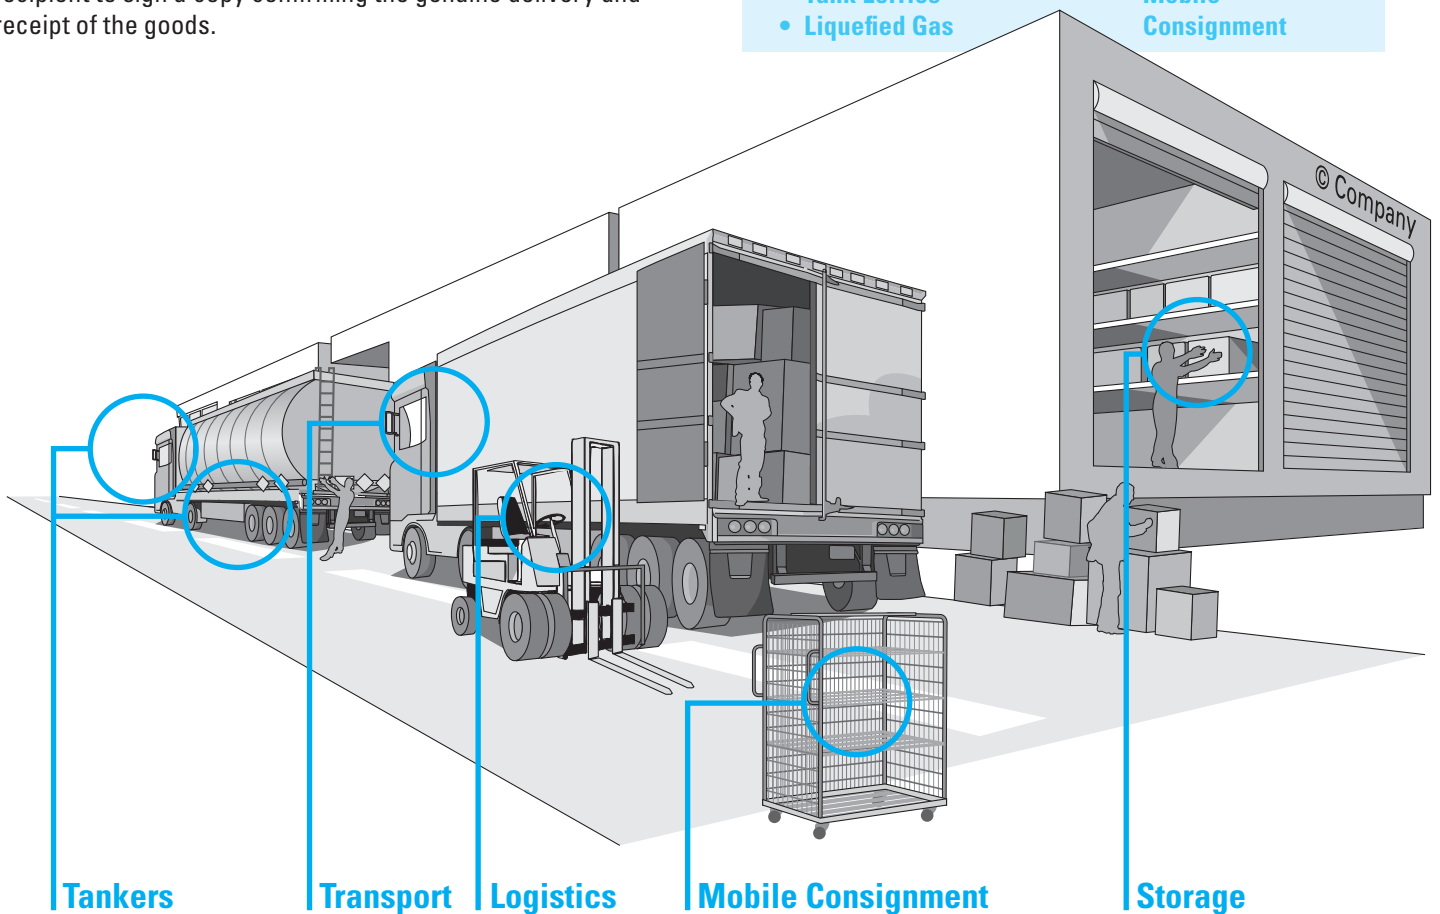

IT may have arrived in vehicles relatively late, but it has seen an all the more faster development over the past 10 years. Once road haulage companies had discovered the enormous cost-cutting potential by optimising delivery routes, vehicle IT became a growth sector.

Despite online networking, paper printouts remain indispensable. If, for example, the current stock inventory is not known, goods are damaged or an order is changed at the last minute, invoices must be corrected or reissued by the delivery driver. With an on-board printer, the goods delivered can be documented precisely. Multiple forms allow the driver and recipient to sign a copy confirming the genuine delivery and receipt of the goods.

Mobile printers by DASCOM offer a superior solution for many vehicle-related tasks. They enable the printing of wide-format sheets, which are necessary for delivery notes and transport documents. Multiple copies allow signature as a proof of receiving the goods. Our printers are not affected by the constant vehicle vibrations or rough environmental conditions and guarantee years of smooth operation.

Examples of operable industries:

- Hazardous Materials
- Tank Lorries
- Liquefied Gas
- Beverage Logistics
- Mobile Consignment

High-Performance Printing Wherever You Are.

	Technology	Print Speed	Resolution	Emulations	Interfaces	Printing Width
■ MIP480	Serial impact dot matrix	600 cps (Fastest Draft)	max. 360x360 dpi	IBM, Epson, Intermec	Parallel, Serial, USB, Bluetooth	80 characters with 10 cpi

MIP480

The MIP480 is a dot matrix printer that was specially developed for printing in a mobile application area. It can be used in conjunction with handheld solutions (PDAs) and notebooks. It combines speed, flexibility and a robust design and is the ideal output device for transport documents and other mobile applications.

With a print-head lifespan of 250 million lines, an ink cartridge that lasts for up to six months when used with typical delivery papers, and an operating time of 7,000 hours without any errors, the MIP480 is ideal for industrial use in the transport of groceries, spare car parts or medicines. The MIP480 is also an interesting printing alternative for use in storage logistics and security technology.

Highlights at a glance:

- The most simple paper management and cartridge changing available
- Robust construction
- Horizontal and vertical installation with only a small surface required
- Fan-fold paper and multiple copies
- Numerous accessories

Mounted printers:

About DASCOM

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

Dot Matrix Printers

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

Flatbed Printers

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

Mobile Printers

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

Thermal Printers

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.
