DASCOM

Reliable And Flexible.

1000 and 2000 series

Dot matrix printers are reliable all-rounders, and thus the correct choice when large amounts of data with carbon copies must be printed quickly and reliably. If you want reliability, long life, and high quality you can depend on when printing, while maintaining a low cost per page, our dot matrix printers are the right choice.
Highlights at a glance:

- Print speed of **up to 1,360 characters/second**
- **Flexible paper** input for continuous paper and single pages
- Optional **automatic paper cutter**
- Extremely **economical to use**
- **Long-life ribbon**
- **A variety of interfaces**
- Up to **8 carbon copies**

DEC printing solutions

The LA series dot matrix printers were specially developed for the Digital/Compaq VAX/VMS/Open VMS environment, and have DEC ANSI emulation to ensure easy integration. With a total of six different models, there is a great selection, whatever your requirements. Thanks to the two-line LCD display, all settings can be quickly and simply adjusted, and not only locally; network printers can be centrally administered using the DASCOM web interface.

Highlights at a glance:

- Print speed **from 448 characters/second up to 1,800 lines/minute**
- **Flexible paper input** for continuous paper and single pages
- Optional **automatic paper cutters**
- Extremely **economical to use**
- **Long-life ribbon**
- **A variety of interfaces**
- Up to **6 carbon copies**

DASCOM

SOLUTIONS FOR BUSINESS PRINTING

About DASCOM The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

Dot Matrix Printers

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

Flatbed Printers

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

Mobile Printers

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

Thermal Printers

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.
